

# Hanging Kitchen Towel Instructions- Set of 2

## Materials:

2- 9" X 12" Front Fabric

2-9" X 12" Back Fabric

2-9" X 12" Batting or flannel

2- 2 ½" strip of sew on Velcro

1- Terry Cloth Kitchen Towel, cut in half crosswise

1. Cut your towel in half so there are 2 pieces approximately 14" X 18."
2. Pleat, fold or gather the towel raw edge so that it measures 6" across. Baste pleats, folds, or gathers in place.
3. Using the template provided, cut two pieces from fabric and one from batting for each towel.
4. Lay fabric pieces right sides together and lay batting on top of fabric. Pin in place.
5. Starting at point A, stitch around the handle using a ¼" seam allowance, to point B. Clip corners and turn right side out and press. Turn under a 1" hem along the open bottom end and press.
6. Insert the pleated/folded/gathered raw edge of the towel into the open end of the handle so it lays a full inch inside. Sew at least two rows of stitches to hold it in place.
7. On the front side of the towel, sew on the two strips of Velcro, sticky half at top, soft half at bottom (see template)
8. Feel free to embellish with rick-rack or pretty fabric at the bottom of the towel.
