

One- Block Wonder

By

Ree Moffitt

Class Supply List:

Book: One Block Wonder or One Block Wonder Encore! Chapter 1-2

Rotary cutting mat 18"x24" or 24"x36"

Rotary cutter with new blade, you will be cutting through 6 layers of fabric at once so a new blade is imperative.

Rulers: A 60° Equilateral Triangle ruler larger than 4" and a 6 ½ x 24 ½" long ruler

Pins: 12 flower head pins that lay flat for pinning the 6 repeats together. You will have to lay your long ruler over them to cut strips so the pins need to lay flat. Then you will also need 100 regular pins to pin the half-hexies together before separating into vertical rows.

Sewing Machine in good working order with size 12 needle and a ¼" foot or tape to mark a ¼" seamline.

A one- or two-yard piece of flannel and another piece of fabric of equal size, to arrange and roll up blocks on, to take home will work fine for class but a Design wall or flannel tablecloth pinned to a wall will serve well for working on this full-size project at home.

Thread to blend with fabric background for both top and bobbin.

Fabric:

A Fabric with a large-scale print that has 2 or more colors and a 24" repeat is preferred. You will get a much larger variety of blocks with this size repeat so I am going to assume everyone is using this size. If not, please refer to the yardage chart on page 9 of the book, One Block Wonder Encore!

4 yards, plus an extra repeat for back of the quilt or binding (4 yards = 6- 24" repeats) should yield 108-114 6" hexagon blocks.

So you'll need 4 2/3 -5 yards of a 24' repeat fabric to make a nice size lap quilt or a twin if borders are added.
